Welcome to The Flat Foot Follies! The cast and crew, including League members, League husbands and other talented members of our community, have worked hard to present an evening of fun, laughter and entertainment, as well as to help raise money for our Community Trust Fund. We hope you enjoy it.

Throughout our 50 year history, much of the success of our Junior League programs, projects and money-raisers has been due to strong community support. We are grateful for your confidence in the Junior League as shown by your generous support of The Flat Foot Follies.

The proceeds raised from The Flat Foot Follies will be returned to the community through our projects and trained volunteers. Thank you for making this possible!

HORIZONS RESIDENTIAL CARE CENTER

Q: What is Horizons?

A: Horizons is a home and a training center for the profoundly, severely, and moderately mentally retarded who need residential care.

Q: Where is Horizons?

A: Horizons is located on the former Memorial Industrial School property near Germanton. The site includes 500 acres of land, three cottages suitable for housing 52-60 residents, and one large building with kitchen, dining, and potential recreational facilities.

Q: Why is Horizons being established?

A: The state is changing its philosophy regarding the state mental retardation institutions from that of long-term care facilities to that of short-term training facilities. With the state's current emphasis on decentralizing its institutions, local communities need to find suitable facilities to care for their own mentally retarded population. There are few such facilities, and none in this region. (Amos Cottage in Winston-Salem serves the multiple handicapped for short periods as a hospital.)

Q: What are the categories of retarded individuals?

A: A severely retarded individual has an I.Q. in the range 20-35. The profoundly retarded range is less than 20. The moderately retarded range is 36-51. The mildly retarded is 52-67.

Q: What kind of life will Horizons provide for its residents?

A: Horizons will be a home, comfortable and attractive for its residents, inviting to their families and visitors, and encouraging the kind of security and happiness found in all good homes. Horizons will also be a training center in which each resident will learn individually up to the level of his abilities.

Q: Who will be served by Horizons?

A: Residents of Forsyth County will be served first, then residents of Stokes County, the North Central Mental Health region, state, and out-of-state. The home will open with 16-20 children ages 2-12. The program will expand gradually and move to whatever age groups present the greatest need.

Q: How will Horizons be supported financially?

A: The Junior League of Winston-Salem has committed \$40,000 over a three year period; these funds must be raised through League projects in the community. The Winston-Salem Foundation has committed \$25,000 for a three-year period to be reviewed annually. The N.C. Department of Mental Health subsidy program has allocated certain funds (approximately \$30,000 annually).

Q: When will Horizons open?

A: Horizons hopes to be open by September, 1974.

Q: What is the significance of the name Horizons?

A: Horizons means that in this setting retarded people have the promise of a brighter future, the promise that they will be able to grow in their own individual ways, and the promise that they can look ahead. The name is affirmative and happy. It means something we all share and care about.

Claire Christopher, Ann Hensel look over Horizons

Howard Walker

LEAGUE PROJECTS

SCHOOL VOLUNTEERS

Members of the Junior League have long served with other citizens in the community as volunteers in our public schools.

Three years ago a more organized approach to school voluntarism was taken when the League in conjunction with the city-county school staff sponsored training workshops.

This year the League gave \$8,000 to pay the salary of the first full-time professional Coordinator of Volunteers, with emphasis on using volunteers as reading and math tutors. League members are also participating in a tutorial reading program in an elementary school.

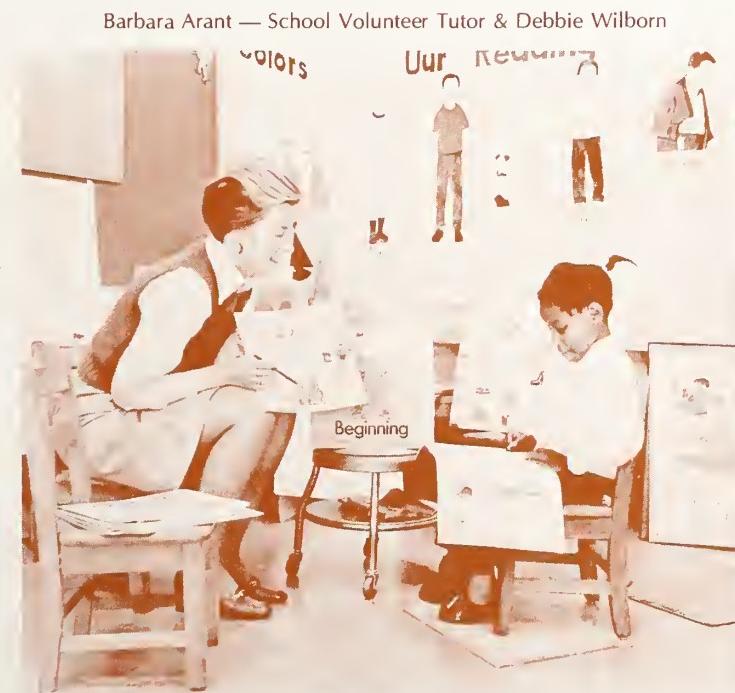

Mrs. Kay Shields was hired by the Board of Education to serve as Coordinator of Volunteers. In her busy and exciting first six months on the job, Kay reports that 60 schools are using volunteers in a wide variety of jobs — math and reading tutors, cafeteria helpers, health room aides, office help, playground leaders. More than 5,000 citizens in Winston-Salem and Forsyth County are spending time as volunteers in our public schools.

The recipients of the school volunteer's help are the more than 45,000 school children in our community. Here are some of the ways children responded to our questions.

Q: What is a school volunteer?
A: A person willing to help other people who need help.

Q: What jobs do school volunteers do in your school?
A: They help on the playground. They help me with math. They help with parties. They help me. They read to us. They help me when I am sick. They show movies. They read me stories in the library.

Q: In what ways do your Mama and Daddy help your school?
A: They come to meetings and talk to my teachers. They listen to me read. They help people who need clothes. They plan our picnic at the end of the year. Mama is a grade mother. They work to send us to school.

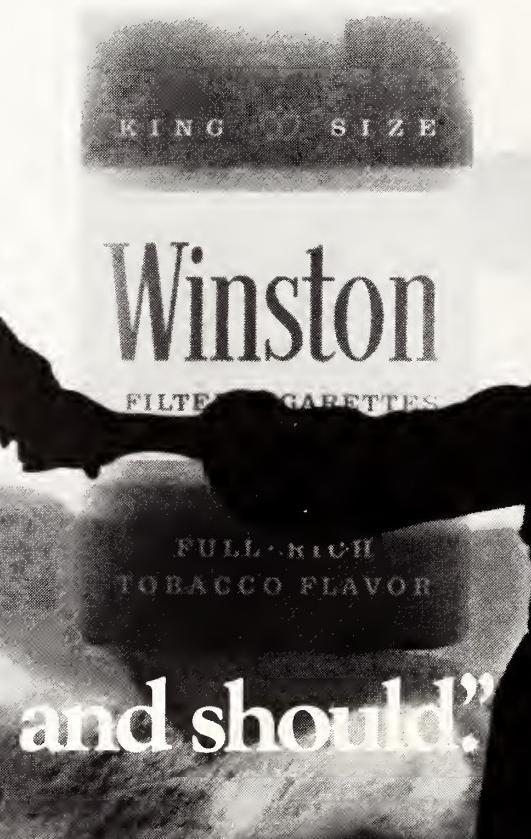

Howard Walker

Q: What do you like best about school?
A: Reading. Math. Playing outside. I like how it looks. I like my teacher.

Q: What would you like in your school which the school does not already have?
A: Big jungle bars, a trampoline, pizza for lunch, steak, a play kitchen, ice cream every day, a baseball team, Indians to really see.

There's a lot of good
between "Winston..."

Winston tastes good GOOD, like a cigarette should.

MAIN STREET — WINSTON — 1885

MAIN STREET — SALEM — 1885

In 1889, there was no such place as Winston-Salem

There was the city of Winston and there was the town of Salem. The combined population numbered about 10,000.

There were also the outlying communities — such as Bethabara, Waughtown, Clemmons, Bethania and Rural Hall. Ardmore, Buena Vista and Reynolda Village were still years in the future.

In 1889, the first savings and loan institution in Winston (and Salem) was established — Winston-Salem Building and Loan Association. In 1889, we approved our first home loan and we started paying high interest on savings. Since 1889, we've helped build thousands of homes in Winston, Salem, Bethabara, Ardmore,

Buena Vista . . . and we've never missed paying a dividend.

Today, we continue to help our neighbors build and buy their new homes. And, we continue to pay high dividends, regularly (with interest compounded daily for even higher annual yields).

We invite you to join us, and your neighbors, building and saving at Winston-Salem Savings and Loan.

Son of Kitty Hawk.

Piedmont Airlines first took off from the Carolina coast, too. But by then, 25 years ago, flight was a fact of life.

So, unlike Orville and Wilbur, we kept going. And going. And growing. Until we became a regional airline serving 75 cities.

Now we fly big-comfort 737 fanjets and propjets.

Now we fly people from small towns to big ones—like Cincinnati, Chicago, Memphis, Atlanta, Norfolk, New York and Washington.

Now we fly to more North Carolina and Virginia cities than any other airline.

We think the Wright Brothers would be pleased. And we wouldn't want to disappoint you, either. See your travel agent, or call us.

PIEDMONT AIRLINES

Our twenty-fifth year of service.
